Re: Request to Intervene regarding Proposed Rate  
Schedule for City of Versailles (minimum purchase  
requirement for Northeast Woodford County Water  
District)

Dear Sirs:

Please consider this letter as the request of the Northeast Woodford County Water District (the Water District) to intervene in the matter concerning the Proposed Rate Schedule filed by the City of Versailles (Versailles) which would require the Water District to purchase its first 15 million gallons of water each month from Versailles. The Water District is an interested party because the Proposed Rate Schedule directly affects the contract between the Water District and Versailles and the ability of the Water District to provide an economical supply of potable water to its customers. The Water District further requests that the Public Service Commission investigate the reasonableness of the Proposed Rate Schedule.

Sincerely,

John S. Davis  
Chairman  
Northeast Woodford Water District
